

How to Pick a Trailer Name

A List of Up to Date Names of Registered Trailers can be found under the Members Area. Once in, **click on “Members’ Trailer Names”**

AS SOON AS A MEMBER ADDS A UNIQUE TRAILER NAME TO HER PROFILE IT IS ADDED IN REAL TIME.

To register and claim a name you must post it to your membership profile (under PROFILE/EDIT/SISTER INFO/TRAILER NAME field) with a ***photo of the exterior of your trailer or vehicle.

You must own the trailer or vehicle you wish to register. Photos from a magazine, or new trailer ads are not admissible.

If you wish to register your truck you use for camping, please upload a photo of you actually camping in your truck.

Please check the master name list for name duplications. Be courteous when naming your trailer and don't duplicate another name. If you want to duplicate or use a similar name that has already been registered, you must contact the original owner of the trailer name and ask permission to use the name or a similar name. She can easily be contacted through the SOTF website via her profile found in the MEMBERS DIRECTORY.

Once you both have agreed upon the name duplication, upload your trailer photo and info to your profile and add “UWP” next to your trailer's name- it simply means “Used With Permission.”

Adding "The" in front of the name does not make it unique. Creative spelling, adding a “state name” to the name does not make it unique.

Be creative and unique. Thanks, S i s t e r s !

***If your photo loads upside down or sideways, delete it and make a small change to the original like crop it a bit or reduce it's size, and then re-upload. That hopefully will make correct.
